ABOUT TEAM KIDS

Our mission is to empower our children to change the world! Our vision is not only

about the future. We give young people the opportunity to tackle today's most critical issues and encourage them to become the next generation of compassionate leaders, entrepreneurs, and philanthropists. Through our flagship and empirically validated Team Kids Challenge Program, 30,000 students learn about leadership, teamwork, empathy and making choices for themselves and others in real-world situations. Team Kids programs focus on building positive assets for youth, and also protects against harmful behaviors, such as substance use, gang involvement, and delinquent activity. Bringing together stakeholders from education, government, public safety, and business, we have the potential to secure successful outcomes for our youngest citizens across the nation.
